VOLUME NO. 48. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA. SATURDAY, JULY 31, 1920 TWO CENTS

HEADQUARTERS FOR BOLSHEVIST LITERATURE FOUND IN DONORA

Agent Placed Under Arrest And Later Sent To The County Jail

ARREST SOLVES HARD PROBLEM

What is believed to have been the headquarters for bolshevistic and anarchistic literature in western Pennsylvania was raided Thursday night in Donora, and one man arrested as the representative of the organization. The house where this literature was stored is located on McKean avenue, near Twelfth, in Donora, and it required three trucks to haul the printed matter away from the place. George Chesnick, an unnaturalized foreigner, was arrested as the representative of the bolshevistic organization. and was taken before Justice of the Peace Grover W. Boyd for a hearing.

On advice from District Attorney Erwin Cummins. the defendant was held in $5.000 bail for court, and being unable to furnish the bond was committed to jail. At the time of the arrest of Chesnick. his boarding boss, Frank Revrite, was also arrested, charged with having in his possession a 38 calibre automatic pistol. As he is an alien he was fined $25 and costs and the revolver confiscated.

In the arrest of Chesnick and the seizure of the literature department of justice men feel that they have really struck the distributing agency for all Red literature which has been appearing regularly throughout this section of the Monongahela valley. The house has been connected definitely with aChicago publishing plant where the literature is being printed. and it is expected that an annoying practice as well as a dangerous one is going to be broken up.

Officers have een annoyed for sometime over the appearance of this character of literature, and it has been somewhat of a mystery as to where it was emanating from. It was thought for some time that agents came from localities on the outside to make the distribution, but the arrest of Chesnick established the fact that the literature was stored in Donora. from which point it is evident that agents and emissaries of the bolshevists made their distribution. Chesnick will likely be deported as an undesirable alien, while a close watch will be kept on Revrite. in whose house the printed matter was stored.

GROCERY FIRM BUYS BIG BREWERY PLANT

The plant of the Labor Brewing company of Uniontown was sold on Thursday morning to the Westmoreland Grocery company, the consideration being $100,000. The brewing company's plant is located on lower Broadway, while the present quarters of the grocery company is located just opposite. Possession will be given immediately.

BIRTHDAY PARTY FOR LITTLE DAUGHER

Mrs. F. Edleman entertained at her home last evening in honor of her daughter Elsie's nineth birthday. The evening was spent in games after which a dainty lun h was served. Miss Edleman received many pretty and useful gifts. Among the guests present were: Anna Shepard, Lorraine Martinet, Evelyn Hindmarsh, Marjorie Williams, Nathal' Miller, Mary Wastishak. Dolores Spencer, Marie and George Lemp of Parnassus.

UNION SERVICES ON SUNDAY EVENING

During the month of August Sunday evening union services will be held in the evangelical churches of Charleroi, services beginning at 8 o'clock. The schedule arranged by the Charleroi Ministerial Union is as follows:

August 1. 8 o'clock. Methodist Episcopal church. Rev. John R. Burson.

August 8. Christian church, Rev. E. N. Greenlee.

August 15, Baptist church, Rev. J. W. Bressler.

August 22, Lutheran church, Rev. F. C. Lake.

August 29, Washington Avenue Presbyterian church, Rev. H. G. Woodrow.

TWO CARS DAMAGED BY LAST NIGHT STORM

The storm last evening caused the Pittsburg & Charleroi interurban car line some trouble at Stewart station, near Library. Also, two cars are at Bethel Road, and one at Oaks station, were crippled as a result of the storm. The one at Oak station had to be pulled back to Castle Shannon, while the one at Bethel Road managed to get in on its own power. However, the regular schedule was maintained in a very satisfactory manner.

I will collect that rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-tf*

To Our Friends

Words cannot express the gratitude we feel for the love, honor and respect shown for our beloved son, and brother, and the generous and kindly sympathy shown and expressed to us in our greatest sorrow. The beautiful tributes and great heart sympathy shown, shall be ever cherished as a sweet memory and may you never have to pass through the heart break that has come to us is our prayer.

L. E. Jobes and Family.
48-t1-*

OFFICERS INVOLVED IN WHISKEY THEFT

Four of the nine defendants arrested in connection with the theft of eight barrels of whiskey from the warehouse of the Vandergrift Distillery, inc., a few weeks ago, were held for their appearance in the United States District Court when arraigned before U. S. Commissioner Knox in Pittsburg a few days ago. Bail in the sum of $500 was fixed for each of the defendants.

Two of the four men are officers of the law, Constable Fred Anderson, of East Bethlehem township, and A. J. Hyatt, of the Vesta Coal company police force. The other defendants are Duncan Lyons and William Crockett. All reside in Vestaburg.

The four men held for court are believed by the federal authorities to be the ones who actually removed the whiskey from the bonded warehouse. It is said to have been taken from place to place before being finally distributed among those who were to share in the spoils of the raid. According to officers this distribution was completed in time for the liquor to be used in celebrating the Fourth of July.

MONESSEN'S CONCRETE BRIDGE IS CLOSED

The pride of Monessen, the concrete bridge on Reed avenue, was closed on Wednesday for extensive repairs and it is expected will not be open again to public traffic until about the first of next December. The contractors, the John F. Casey company of Pittsburg, are in charge of the work, and will push all details as fast as possible. The first work to be done on the structure will be the removal of an apparently sound beam, which will be transported to the U. S. government Bureau of Mines in Pittsburg, for a thorough test, the result of which will be used in determining how extensive replacements will be necessary. The estimated cost of the repair work, together with the contractor's profit is approximately about $50,000

DRUG FAMILIES; THEN ROB THEM

The residences of six foreign families of Baznell, Fayette county, on the Redstone branch, were entered some time during Tuesday night last and robbed of numerous sums of money. The victims of the robbery knew nothing of the occurrence until the following morning, when they got up to find their clothing scattered about the floor. and their money gone. One man is reported to have lost about $800. From all appearances the robbers used some kind of a drug to stupefy their victims, for none of them were disturbed during the night. State police are investigating.

John D. Berryman and family are spending a vacation period of two weeks at Atlantic City.

HEAR EQUITY CASE AGAINST COKE CO.

Hearing in the equity suit of the Monongahela Railway company against the Union-Connellsville Coke company was begun before Judge Reppert in the Fayette county court Wednesday morning. The case is over a subsidance of the ground said to have been caused by coal having been taken from the Simpson plant of the said coke company.

Officials of the railway company said that the greatest drop was about six feet, this depth extending for about 30 feet, and then decreasing in depth for almost 300 feet. It was testified that the railway company had paid at one time $4,312.84 in repairing the track caused by this subsidence. of which amount $1,815.85 was paid for watchman. It was stated the subsidance was a menace to the safety of the railroad and a continual expense to the company. After hearing a number of other witnesses. both for and against the railroad company the case was continued, owing to the absence of material witnesses.

CLAIM DELAY IN MOVING COAL CARS

A few days ago it was reported that 275 cars of the gondola type were on the sidings at Donora, waiting to be moved to the mines. to be loaded with coal. Many of these cars are reported to have been on the sidings for several days and no attempt made to move them. As coal operators are in need of cars to keep their mines in operation many people do not understand why so many available cars are allowed to stand for such an extended period without being utilized for coal shipments. The mills could have used these cars to ship finished products, but they are denied their use by recent orders of the Interstate Commerce Commission.

OIL STRIKE MADE AT FINLEYVILLE

Oil was struck on Thursday in the well being drilled by the Riverview Finleyville Oil & Gas company, on the Clifton Morrison farm, one-fourth mile east of Finleyville. The strike was made in the Gantz sand at a depth of 1995 feet. Drilling is being continued.

The well is located within 100 feet of another on the same farm which has been producing for the last 25 years, and gives prospect of being a good producer. The same company has made plans to drill two more wells on the Sessi farm, adjoining the Morrison lease, while another on the Morrison farm will be drilled in by the Monongahela & Finleyville Oil & Gas company.

Picnic and Outing, auspices of I. A. S., Eldora Park, Sunday, August 1st, 1920. Prizes given for Races. Everybody welcome. 46-t6*

LITTLE COAL TONNAGE LEFT AFTER PRIORITIES ARE FILLED

Operators Must Make Shipments To New England As Well As Lakes

PRICE QUESTION NOT SETTLED

Mandatory orders of the Interstate Commerce Commission to give preferential shipment of coal to the northwest through the lakes and New England through the tidewater, together with existing priorties, cut off the exportation of coal during their life without saying so in so many words. That interpretation is given in the Connellsville and upper valley district of the policy of the I. C. C. with the receipt of Service Order No. 11, which puts into effect in favor of New England the mandatory provisions to ship contained in the previous order designed to coal the northwest before the great lakes are closed to traffic.

Service Order No. 11. which becomes effective on Monday next, Aughst 2. directs that a certain percentage of the coal output from various sections of the country, shall be consigned to New England destination through the tidewater pools and provides that the shipment of bituminous coal, other than for coastwise shipping, shall be suspended until the New England shortage has been made up.

Tonnage of 300.000 tons for this district for mandatory shipment to the northwest must be forwarded before the great lakes closes, which will be some time in November. Service Order No. 11 differs in tonnage designation from the northwest in order that a specified tonnage is required from mines along various railroads. The total for the Pittsburg district in which is included that for the Connellsville region, is placed at 231,000 tons monthly to be drawn from the mines in the following proportions: Pennsylvania, 122,000 tons Monongahela railroad, 5,000 tons, Baltimore and Ohio. 34,000 tons; New York Central. 20.000 tons.

Under the interpretation of Service Order No. 11 great lakes shipments are given preference, with the New England forced shipments via tidewater succeeding. Next comes priorities for public utilities and public institutions. Railroad fuel is understood to have an exemption to all orders. If any tonnage remains after preferential shipments have been made and priorities compiled with the shipper is given the privlege of consigning tonnage wherever he may desire. The view taken by valley operators is that little tonnage will remain.

Successive orders of the Interstate Commerce Commission have made it apparent that the coal industry is rapidly being brought under government control in fact if not in name. The northwest and New England preferential forced shipments is the war-time zoning system under another name, while the priorities have the effect of designating those industries which under war-time regulation

(Continued on Page 4)

FIGHTERS REUNION IN WASHINGTON TODAY

Members of the old "Fighting Tenth" are holding their annual reunion at Washington today. Today is the 21st anniversary of the battle of Malate, where the Tenth Pennsylvania received its baptism of fire and in which it lost a number of its members. The regiment served for over a year in the Philippines having volunteered to remain in the far east during the Philippino insurrection.

SITE FOR OVENS NOT YET SELECTED

While it is not certain as to where the United States Steel Corporation will locate a new by-product plant in the Monongahela valley. it is said on competent authority that the choice lies between Donora and Clairton The corporation already has the largest plant of the kind in the world at Clairton, and has room for many more ovens at that point. according to a statement made by one of their leading engineers At the same time the merits of the Donora location are not lost upon the officials of the company. as they realize that our neighboring town has a site to the north of that town that in every way is just as desirable as the Clairton location. When a decision is reached on the question of location it is expected that work on the additional ovens will be placed under way at once

COUNTRY CLUB ELECTS DIRECTORS

A well attended meeting of the Monongahela Valley Country Club was held at the club house in Carroll township, Friday evening. to act upon important matters in connection with the new organization. Twelve directors to serve for the ensuing year. four to serve for one year,four for two years and four of three years. were elected, among t hem being Carl Mountser and Dr. Edwin McKay. Action was also taken on increasing the indebtedness of the organization, which was favorably acted upon.

Away.

I cannot say, and I will not saw that
he is dead. He is just away!
With a cheery smile and a wave of
the hand,
He has wandered into an unknown
land.
And left us dreaming how very fair
It needs must be. since he lingers
there.
And you—oh you, who the wildest
yearn
For the old-time step and the glad
return,
Think of him faring on. as dear
In the love of There, as the love of
Here.
Think of him still as the same. I say
He is not dead—he is just away.

COST OF REDUCING FAT

As there are fat people who win and keep friends by amiability and other good qualities, the saying, "nobody loves a fat man," needs modification. It would be more to the point to say: "The fat person can not be grateful or otherwise please the eye of the lover of beauty." It is this—the desire for good looks, not the hunger for unattainable affection—that causes the great struggle to reduce the waist line,a struggle often involving too high a price to pay for what is gained. We read of a Chicago woman, for example, who gladly lived on water and two stalks of celery a day for 23 days in order to reduce her weight. A too heavy candidate for police woman in the same city is known to have trained for her job by dining on half a slice of lemon and filling the aching void at other hours with water. Apart from the suffering the chief objection to such extreme measures is that the average fat person must work and no one can keep on working without food.

Ex-President Taft's case is the more interesting because he has managed to attain his ends without very great self-denial. As to how he succeeded in getting rid of 75 pounds we read: "At meals he drank a glass or two of water, gave up bread and toast and all farinaceous food, all butter and other fats, stuck for meat to beef and mutton and fowl, shunned pork and veal, omitted fat fish like salmon and gave up sweets. He ate all vegetables except potatoes and all fruits not having too much sugar. He took moderate exercise every day, playing golf or walking four or five miles." The price Mr. Taft paid was not too high, but fat ladies driven to a diet of water and two stalks of celery a day may well ask themselves if the game is worth the candle.

SUGAR AND CANDY

Sugar, as everybody knows, is a little cheaper lately. Advices say that it is going to go down several cents more before long. One of the biggest refiners recently cut the wholesale price of his output to 21 cents a pound. The stuff may be retailing everywhere soon at nearer 20 cents than 30.

Be it noted also that at a convention of middle-western confectioners held a few days ago, itwas unanimously predicted by the members present that there were going to be further advances in the price of all kinds of candy.

Now, just why candy, already very high, should go still higher when the cost of its chief ingredient is falling, may be a mystery to the ignorant consumer. The manufacturers explain that labor and transportation are probably going to cost more. It would be interesting to know precisely how much the increased freight rates are going to add to the first cost of a pound of candy, and how much that cost will be by the time it reaches the consumer; also where the increased labor cost comes in, and how much it is multiplied in being passed along.

Business men in other lines of trade usually insist that their own prices are moderate, when they consider what candy is selling for today. Consumers so far seem to have stood for it pretty gamely. Prohibition whetted their sweet tooth, and they had money in their pockets. But there is a limit to everything. People may stop buying candy one of these days. Whenever they do, in any considerable numbers, it may be discovered all at once that the cost of materials, labors and transportation is not so great, after all, and that possibly overhead expense has been a little over-estimated.

FAMILY TREES

An old man, who had amassed a fair share of this world's goods, spent some time in collecting a history of his family. He compiled a rather large volume, and then had only eight copies of it printed, giving one to each of his seven children—four sons and three daughters—and keeping one himself.

It was a remarkable document and a somewhat depressing one. The record showed that a great-uncle had absconded while executor of an estate a cousin had killed a man while on a drunken spee, another cousin had eloped with a married woman, while a brother-in-law had died while under indictment for forgery. The good records of members of the family were set down along with the bad. Nothing has concealed or apologized for, and while there was more good than bad in the record as a whole it was bad enough.

The "war cloud in the Balkans" is still there.

Things are sometimes worse than we thought. There are two Bergdolls.

When a woman believes every word a man says it's a sign they are not married.

We don't care what they do to the Turk, as long as it is plenty and they quit talking about it.

It seems like old times to see Tom Watson running for the senate in Georgia against Hoke Smith.

Marksmanship in the Chinese army is mighty poor. A defeated general failed to shoot himself and failed.

The inmates of the New York reformatory who staged a riot the other day at any rate justified their presence there.

FAST BASE BALL IN UPPER VALLEY

The eastern section of Greene county is indulging in base ball through a well organized and very fast local league, including such communities as Rices Landing, Mather, Nemicolon, Carmichaels, Clarksville and Crucible. The recent development of the new coal fields in that section of the county has brought in a large number o new people and they are furnished lots of entertainment and excitement over the race for first place between these six teams.

All of the teams have splendid talent, and just now it is a race to see which will win the flag. At the present time Rices Landing is out in front, having taken the lead from Nemicolon last week in a very exciting game. It is estimated that at least 5,000 people attended this game, with hundreds of automobiles parked around the field. A detachment of state police in that section of the valley preserves order for it takes some authority to keep the partisans of the various teams in line. Just the same the new league is a fast one, and is furnishing the people a fine brand of base ball.

An Overburdened Wife

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with backache, pains in side, headaches and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

Remember your dead. W. S. Cook and Co. Monuments with Lawrence Frye Funeral Director. 20Stf

MONONGAHELA SPOT IN THE VALLEY

Mayor Allen of Monongahela, has had about sixty cases of drunkenness before him during the present month of July, and all of the defendants have been fined from $5 $25. Even these stiff fines do not seem to halt the parade of the inebriates, who come up smiling after receiving their sentences and pay the freight. One young man of that city carries off the "honors" among the jag hunters by being fined four times in three days, and he paid the price on every occasion. It is intimated that a great deal of "pick-handle" is being manufactured in Callatin and Manown, but whether this is true or not, the "soaks" of our neighboring town, of whom there appears to be plenty, apparently have but little trouble in getting what they want to drink.

CRUDOLEUM

is a rich, light amber in color, high grade, pre and natural product that has been proven by actual use to be especially adapted to remove dandruff and prevent the hair from falling out.

TAKE CARE of the children, especially the girls; see that their hair has a good healthy start. They during their school days, are subject to contagion of scalp diseases. CRUDOLEUM is ready to expel dandruff and heal red, crusty, rough, scaly scalp, and in addition to this aids those who have the blessing of abundance of pretty, luxurious, healthy hair to keep the scalp clear and free from disease and the hair beautifully brilliant.

OF THE HAIR of girls it is often truly said that it has a direct bearing on their future career. The girl with beautiful hair has a better start. Get a pint bottle today at F. J. John's. Your money back if not satisfied.

WHILE IT'S THERE is the time to give it care. Do not wait until the hair is nearly all gone before applying the antiseptic CRUDOLEUM to arrest the germ progress. Mr. F. J. John is authorized to return the purchase price if you are not pleased with the results of using CRUDOLEUM. The price is exceedingly small, only 35c. If your druggist cannot supply you, order it from Wm. M. Simpson Drug Co., Wholesale Druggists, Wilkinsburg Station, Pittsburgh, Pa. Price by mail, 40c.

CONCRETE BRIDGE NOW COMPLETED

The concrete bridge across Ten Mile creek, one mile east of Waynesburg, has been completed and the fill on the approaches of the bridge is now being made. The bridge is expected to be thrown open to the public travel within a few days. This bridge is one of the largest concrete structures in that section of the state and the cost of construction was $28,990. It has a span of 132 feet with wing walls at one end 42 feet long and at the other end they are 28 feet in length. The bridge has a driveway 18 feet wide and has a carrying capacity of 20 tons. The bridge has a very pleasing appearance and is quite an improvement over the old wooden structure which it replaced. It is on the road between Waynesburg and Jefferson, which is now in course of construction by the Con Oil Tank Construction company.

LITTLE COAL TONNAGE LEFT AFTER PRIORITIES ARE FILLED

Continued from page 1.

were termed "essentials." Nothing has yet been formally done regarding price but, the mere silence of the northwest and New England orders upon that important subject, together with their mandatory provisions, meet that situation effectively, from the viewpoint of the consumer at least. By leaving price a subject for determination between producer and consumer the forced shipments will go forward upon prices prevailing in those sections, and the mandatory provisions have had a tendency to soften the market price in those sections accorded preferential mandatory shipments.

Cumberland Man Unable To Walk On Account of Rheumatism; One Bottle Reese Formula Restores Him

Bradley S. Deter of 205 Thomas Street Tells of Wonderful Results of Taking This Famous Remedy

Mr. Bradley S. Deter of 205 Thomas Street, Cumberland, Md., has suffered for years with rheumatism which was so bad at times that he could not walk. Mr. Deter tells how the many wonderful results heard of by using the Reese Formula R-11 caused him at last purchased a bottle from Hedman's Drug store. As to the result we will let Mr. Deter tell you in the following statement:

"I have suffered for years with rheumatism and have tried everything I ever heard of without any of them doing me a bit of good until I begun taking the Reese Formula R-11. I have only taken one bottle but I am feeling fine. My rheumatism is gone. When you consider the fact that I suffered from rheumatism so bad that I could not walk you may begin to realize what a wonderful remedy it is. I am buying my second bottle today. I want to recommend The Reese Formula R-11 for its work in my case has proven its merit."

If you suffer from stomach, liver kidney disorders such as rheumatism indigestion, nervousness, sleeplessness, backache and etc., get a bottle of The Reese Formula R-11. It will do as much a god-send to you as it has to others.

If you write direct for further information, Medical Department, Humor Medical Adviser, The Reese Formula Co., Huntington, W. Va.

THE MEASURE OF A MAN

is not found in the amount of money that comes into his hands, but rather in the amount he is strong enough to retain.

If he spends beyond his income, he shows that even at manhood he has not grasped the lesson he should have learned in youth.

If he saves a fair proportion, he shows a fine regard for the fundamental law of financial progress.

Our certificates of Deposit are an ideal form of investment for savings.

Real Estate... Buyers, Attention!

The Stockdale Land & Improvement Company has now opened its Plan No. 1, adjoining the BOROUGHS OF ROSCOE AND STOCKDALE. This is the site of the largest industrial town of the Upper Monongahela Valley.

BIG MILL ADDITIONS

Large additions are now being made to the plant of the Pittsburgh Steel Products Company and a still larger development is expected for the future. Building sites are badly needed for the large force of men that will be employed in these mills.

MUST HAVE HOMES

Most desirable lots are now on sale and many are already taken. Now is the time to get a choice location for either residence or business purposes.

PESKY BED BUGS

(Pesky Devils Quietus) P. D. Q. is a new chemical that puts the everlasting to the Pesky bedbugs, roaches, fleas, ants and cooties—impossible for the pesky devils to exist where P. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroad Companies and other public institutions are a guarantee to the public that the safest, quickest and most economical way of ridding the pesky insect is by the use of P. D. Q. as this chemical kills the eggs as well as the live ones, and will not injure the clothing.

A 35c package makes a full quart, enough to kill a million bedbugs, roaches, fleas or cooties—and also contains a patent spout to get the egg nests in the hard-to-get-at-places and saves juice.

Special Hospital size $2.50 makes five gallons—contains three spouts—supplied by druggists or sent prepaid upon receipt of price, either size, by the Owl Chemical Co., Terre Haute, Ind.—never peddled.
